

MICRO-PROJECT REPORT

ON

Prepare the Report on Cloud Security in Cloud Computing.

In Partial fulfillment of Diploma in Computer Engineering

(Sixth Semester)

In the subject of

Cloud Computing

(CM 5465)

By

22CM013 – Gauravi Vinod Chakote

22CM018 – Diya Dineshsingh Chauhan

Submitted To

Government Polytechnic, Amravati

(An Autonomous Institute of Govt. of Maharashtra)

Under the guidance of

Prof.C.P.Ahir

Lecturer in Computer Engineering Dept.

Government Polytechnic Amravati, (2024-2025)

Declaration

I undersigned here by declare that the micro project report entitled “**Prepare the Report on Cloud Security in Cloud Computing.**” contents is the outcome of my own literature survey. I further declare that contents of this report are properly cited and well acknowledged. This present report is not submitted to any other examination of this or any other institute.

Place: Amravati

Government Polytechnic,
Amravati

Date:

Name of Student	ID Code	Signature
Gauravi Vinod Chakote	22CM013	
Diya Dineshsingh Chauhan	22CM018	

Government Polytechnic, Amravati.

(An Autonomous Institute of Govt. of Maharashtra)

Department of Computer engineering.

Certificate

This is to certify that Mr. Naman Bharsakale , Sarvesh Chaudhari Identity Code. **22CM010, 22CM016** of Fifth Semester Diploma in Computer Engineering has satisfactorily completed the micro project entitled **“Movie Recommendation system using python.” In Python Programming(CM5461)** the academic year 2024-2025 as prescribed in curriculum.

Prof.P.P.Karde
HOD in Computer Engineering Dept.

Prof.C.P.Ahir
Lecturer in Computer Engineering Dept.

PART A- Plan (About 1-2 pages)
Format for Micro-Project Proposal

Title of Micro Project :

Prepare the Report on Cloud Security in Cloud Computing.

1.0 Brief Introduction

A report on **Cloud Security in Cloud Computing** explores the various security challenges, risks, and solutions related to cloud-based environments. As more businesses and individuals rely on cloud computing for storage, applications, and services, ensuring data privacy, integrity, and availability becomes crucial. The report typically covers topics such as:

1. **Cloud Computing:** Delivers computing services (storage, processing, software) over the internet.
2. **Access:** Users can store and access data remotely, instead of relying on local servers or personal devices.
3. **Benefits:** Offers flexibility, scalability, and cost-efficiency, with a pay-as-you-go model.
4. **Functions:** Supports data storage, hosting applications, and providing software and infrastructure services.
5. **Cloud Security:** Protects data, applications, and services in the cloud from cyber threats and unauthorized access.
6. **Techniques:** Uses encryption, firewalls, and identity management to safeguard sensitive information.
7. **Importance:** With more reliance on cloud services, strong cloud security is crucial to prevent risks like data loss and account hijacking

2.0 Aim of the Micro-Project (in about 4 to 5 sentences)

- 1- To get the knowledge about Cloud Computing.
- 2- To understand Cloud Security in Cloud Computing.
- 3- To understand the importance of Cloud Security.

3.0 Action Plan

(Sequence and time required for major activities for 8 weeks)

S.N.	Details of activity	Planned start date	Planned Finish date	I. Code &Name of Team Members
1	Discussed about the topic	12/02/25	13/02/25	22CM013 and 22CM018
2	Gathered the information about Cloud Security in Cloud Computing.	14/02/25	17/02/25	22CM013-Gauravi Vinod Chakote
3	Developed report for topic.	18/02/25	28/02/25	22CM013 and 22CM018
3	Make Changes According to requirement..	29/02/25	02/03/25	22CM013 and 22CM018
4	Prepared a Report	03/02/25	05/03/25	22CM018 – Diya Dineshsingh Chauhan

4.0 Resources Required

(Major resources such as raw material, some machining facility, software etc)

S.N.	Name of Resource/material	Specifications	Qty	Remarks
1	Google	Chrome	-	
2	Software	Word	-	

Guideline for Assessment of Micro-Project

Evaluation as per suggested Rubric for Assessment of Micro-Project

Assessment Parameter	Characteristic to be assessed	Average (1 mark)	Good (1.5 mark)	Excellent (2 mark)
Process Assessment (06)	Relevance of the courses & proposals			
	Literature survey/market survey/information collection			
	Analysis of data & completion of the target as per proposal/			
Product Assessment (04)	Report Preparation/Quality of Prototype/model			
	Presentation / Viva			

PART B

Title of Micro Project :

Prepare the Report on Cloud Security in Cloud Computing.

1.0 Brief Introduction

A report on **Cloud Security in Cloud Computing** explores the various security challenges, risks, and solutions related to cloud-based environments. As more businesses and individuals rely on cloud computing for storage, applications, and services, ensuring data privacy, integrity, and availability becomes crucial. The report typically covers topics such as:

1. **Cloud Computing:** Delivers computing services (storage, processing, software) over the internet.
2. **Access:** Users can store and access data remotely, instead of relying on local servers or personal devices.
3. **Benefits:** Offers flexibility, scalability, and cost-efficiency, with a pay-as-you-go model.
4. **Functions:** Supports data storage, hosting applications, and providing software and infrastructure services.
5. **Cloud Security:** Protects data, applications, and services in the cloud from cyber threats and unauthorized access.
6. **Techniques:** Uses encryption, firewalls, and identity management to safeguard sensitive information.
7. **Importance:** With more reliance on cloud services, strong cloud security is crucial to prevent risks like data loss and account hijacking

2.0 Aim of the Micro-Project

- 1- To get the knowledge about Cloud Computing.
- 2- To understand Cloud Security in Cloud Computing.
- 3- To understand the importance of Cloud Security.

3.0 Course Outcomes Integrated

CO2–prepare report for cloud security.

4.0 Actual Procedure Followed

(Write step wise the work was done, including which team member did what work and how the data was analyzed (if any))

- **Discussed about the topic.**
22CM013 and 22CM018
- **Gathered the information about Cloud Security.**
22CM013-Gauravi Vinod Chakote
Prepare the report on cloud security in cloud computing
22CM013 and 22CM018
- **Make Changes According to requirement.**
22CM013 and 22CM018
- **Prepared a Report.**
22CM018:Diya Dineshsingh Chauhan

5.0 Actual Resources used (Mention the actual resources used)

S.N.	Name of Resource/material	Specifications	Qty	Remarks
1	Google	Chrome	-	
2	Software	Word	-	

6.0 Skills Developed/learning out of this Micro-Project

1. Gained knowledge about Cloud Security.
2. Learnt about the importance of Cloud Computing.
3. Learnt about importance of cloud security.
4. Team work.

Name	I- Code	Signature
Gauravi Vinod Chakote	22CM013	
Diya Dineshsingh Chauhan	22CM018	

7.0 Assessment by Faculty as per Rubrics

Process Assessment (06)	Product Assessment (04)	Total Marks (10)	Signature of Faculty
